**** Gold booth includes 2 tables and 4 chairs, electricity (220V/10A), internet and catering staff

Prices are excl. 21% VAT and must be paid before July 1, 2019

3D Printing Changes our Health Care

3D printing is becoming increasingly implemented in medical professions, from surgeons to pharmacists and from dentists to Biomedical engineers. Several uses of the technology are already generating revenue as viable medical businesses, like dental applications, prosthetics and hearing devices. However, lack of skilled professionals, and problems related to material characterization and development are some of the factors restraining the growth. Also regulatory requirements for the approval are inhibiting the growth of the global 3D printing in medical / dental and medicine applications market. The role of tools to manipulate 3D Models and the role of Medical Imaging Computing is growing fiercely.

Focus topics:

Day 1 (July 9, 2019)

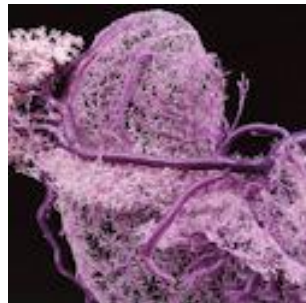

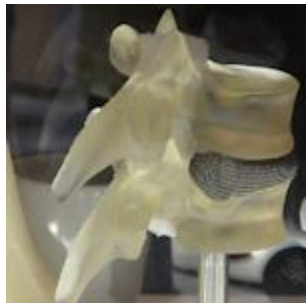

- ▶ 3D Bio Printing
- ▶ 3D Dental Printing
- ▶ 3D Dental Scanning / Software
- ▶ 3D (Bio)Materials
- ▶ Legal and Regulatory issues regarding 3D Medical printing applications

Day 2 (July 10, 2019)

- ▶ 3D Medtech Printing
- ▶ 3D Medicine & Pharmaceuticals Printing
- ▶ 3D Food (Medical) Printing
- ▶ 3D Medical Scanning / Software
- ▶ 3D Medical Workflow & Planning Tools
- ▶ Medical Imaging Computing
- ▶ Medical applications with Virtual Reality / Augmented Reality

Who attends:

Medical professionals | Dentists | Bioengineers | Dental Labs | Biomedical Engineers | Medical Scientists | Clinical Data Scientists | Medical VR Designer | Pharmaceutical, biopharmaceutical and Biotech professionals | Regulators | Compliance Officers | Pharmacists | Laboratory Personnel | Consultants | Contractors/Subcontractors | 3D Printing suppliers | anyone responsible for medicine/drug: Development | Manufacturing | Preclinical | Quality Assurance | Quality Control | Operations | Surgeons | Medical Engineers | Research Institutes | Doctors | Development etc.

Communication

Extensive communication about the Conference and Expo will take place via various channels. Exposure for partners and exhibitors will be attained via direct e-mailing to an extremely top-quality and exclusive database.

We will communicate about the event in the following ways:

- Conference and Expo websites and news sections
- Twitter
- Facebook
- LinkedIn
- Several newsletters which we sent out from March 2019 onwards.

Media

The communication strategy also includes online advertisements, button-advertisements, advertisements in printed magazines and notification of the event on the websites of the supporting media partners.

The event will be equally supported in the blogs, trade press, newsletters, websites and twitter of the international media partners.

Venue

The conferences and expo takes place at the University of Perugia, School of Medicine Building B, Piazza Gambuli 1, 06129 PERUGIA (PG), Italy
